■ Recommendation

■ **Pricing Summary**

- Quotation 1: ¥299
- Quotation 2: ¥140
- Quotation 3: ¥34

■ **Best Recommendation**

Considering price, performance, and suitability for gaming:

- Quotation 3 is the most budget-friendly option with decent performance, suitable for casual gamers or beginners.
- Quotation 2 offers a good balance of quality keyboard with advanced switches (OmniPoint) and a reliable gaming mouse at a moderate price.
- Quotation 1 is the premium choice, featuring a high-end Logitech keyboard with versatile connectivity and presumed high-end Logitech gaming mouse, making it best for serious or professional gamers, but at a higher cost.

If budget allows and you want the best performance with versatile connectivity and tactile precision, Quotation 1 is recommended. For a more balanced cost/performance ratio, Quotation 2 is a strong choice. For budget-conscious buyers, Quotation 3 offers acceptable quality.
